THE HEAT CONTINUES.

Fearful Result In and Around New York.

NEARLY TWO HUNDRED ARE DEAD

Many of the Stricken Still In a Precarious Condition—Hundreds of Homes Die Upon the Streets of New York and Chicago—Deaths Are Reported In Many States.

NEW YORK, Aug. 11.—The number of deaths caused by the heat in Greater New York is about 100, and additional victims are being reported hourly. The prostrations are almost innumerable, and no accurate estimate can be made. Streetcar horses have dropped on the tracks by scores. Out of door work was largely suspended and many factories are temporarily closed.

Sunday night was the hottest of the summer, the climax of the present torrid spell, and one of the hottest known in this city for years.

Early yesterday morning there was but 50 per cent of humidity, which is rather below the normal. The street temperature, taken in the shade at a point near the center of the city, was 85 at 9 o'clock a. m., and at 1 o'clock p. m. it was 104.

The suffering has been most intense in the tenement sections. In these sections the charitable organizations have had their hands full, many infants and children succumbing to sunstroke. The hospitals were obliged to call on the police department to aid them in responding to calls, as their ambulances could not cope with the number of cases reported. Many other wagons were pressed into use to carry away dead and disabled animals.

At 11:30 o'clock last night there was no relief from the strain of the past week and on the roofs of many dwellings people are trying to get rest.

In the vicinity of New York, including Brooklyn, Staten Island, Jersey City, Hoboken and Brunswick, the number of deaths are 88 and many in serious conditions.

Reports from Indiana, Ohio, Illinois, Kentucky, Michigan, Pennsylvania and many New England states show numerous prostrations as the result of the intense heat.

STILL HOT AT NEW YORK.

Twelve Deaths Given Out In the First List by the Police.

NEW YORK, Aug. 11.—Twelve deaths and 38 prostrations comprised the first list given out at police headquarters today of the casualties attributed to heat. The accumulated effects of more than a week of extremely hot weather are being shown in the number of fatalities reported, and it is expected the death roll will be quite as large, if not larger, than yesterday. There is a breeze which brings a feeling of relief to those who can get within its range, but the temperature at 11 o'clock was 92 to 94 on the streets and humidity 65 per cent.

FIFTY-ONE VICTIMS AT CHICAGO.

Number of Dead In One Day From the Terrible Heat.

CHICAGO, Aug. 11.—The harvest of death from heat continues here. There were 51 victims yesterday, and the number promises to be increased today. The weather bureau has predicted cooler weather for tonight, but for the present terrible heat continues. At 5 o'clock this morning the thermometer registered 76 degrees at the top of the auditorium tower, 22 stories from the ground. At 9 o'clock it was 85 degrees. In close, stifling tenement quarters, surrounded by animals and festering fomenting garbage the heat was 100 per cent more intense and fatal. At 10 o'clock 15 deaths had been reported at the health department.

At Providence.

PROVIDENCE, Aug. 11.—The heat here since yesterday has been intense, some thermometers ranging 99 nearly all day. Three persons were overcome and will probably die.

Two Deaths at Boston.

BOSTON, Aug. 11.—The thermometer registered 93, which is the record for the season. The humidity all day was above the normal and the suffering was intense. Four prostrations occurred and two resulted fatally.

Throughout Connecticut.

HARTFORD, Aug. 11.—Yesterday was the hottest day since 1873. The maximum was 93 degrees, though private thermometers on the street registered 103 degrees. Prostrations and deaths caused by the heat are received from all sections of the state.

All Caused From Heat.

OWENSBORO, Ky., Aug. 11.—Sixteen deaths from various causes, all caused by excessive heat, occurred here in the last three days.

Twelve Dead at Baltimore.

BALTIMORE, Aug. 11.—The number of fatalities due to the continuance of the heated term yesterday was 12, making a total of 36 together with about 70 prostrations.

Prostration and Death.

GUTHRIE, O. T., Aug. 11.—W. J. Windoffer, a tailor, formerly of El Dorado, Kan., and Quincy, Ill., was overcome with the heat here and died in a few moments.

KILLED FOR HIS MONEY.

A. W. Pile Is Robbed and Murdered at Washington.

WASHINGTON, Aug. 11.—A. W. Pile of California, secretary of the national silver committee, was found dead here under circumstances which lead to a suspicion of foul play. He had been missing since last Thursday. His body was found yesterday under the aqueduct bridge. When last seen he had considerable money on his person, but the money was missing when the body was discovered. A silver watch, however, had not been disturbed. There is no evidence of suicide. Mr. Pile was the son of ex-Congressman Pile of California.

DISCOUNTING OUR SILVER.

Canadian Banks Refuse to Take American Silver at Par.

HAMILTON, Ont., Aug. 11.—Following the lead of Montreal and Toronto banks and boards of trade the banks of Hamilton have refused to accept American silver and silver certificates at par. The order is said not to be due entirely to the silver agitation in the United States but partly because there is too much American silver in circulation in Canada.

The Single Tax Cases.

DOVER, Del., Aug. 11.—Chancellor Nicholson has delivered his decision on the habeas proceedings brought by the single tax advocates for their release from jail. The chancellor decided that in the case of W. H. Keegan, the town alderman, Peter L. Cooper, erring in placing the amount of the fine and costs on the margin of the docket instead of in the body thereof, and that the commitment was, therefore, defective, and he was discharged. In the other cases a motion for a writ was denied and the prisoners were released.

Refused to Divulge It.

LONDON, Aug. 11.—The secretary of the state for home affairs, Sir Matthew White Ridley, in the house of commons, today refused to answer a question on the subject, refused to communicate to the house the statement made in his private capacity, by the lord chief justice, Baron Russell, of Killowen, with reference to the case of Mrs. Florence Maybrick, the American, undergoing a sentence of imprisonment for life after having been convicted of the charge of poisoning her husband, Mr. Maybrick.

Hurrying For Bryan and Sewall.

PERRY, O. T., Aug. 11.—Some days ago three murderers escaped from the Woods county jail and since then a large posse has been in pursuit. Friday morning about daylight the jailer was awakened by someone hallooing in the jailyard. He immediately went out to see what was the cause of the commotion and he found Lee Beberstein, one of the escaped prisoners, sitting on the jail fence hurrying for Bryan and Sewall.

Too Much Real Estate.

NEW YORK, Aug. 11.—The following notice signed by F. D. Kilbourn, superintendent of banking, was posted on the door of the Murray Hill bank today: "This bank closed pending examination of the condition of its affairs." The bank is one of the oldest state institutions in this city. Deposits amount to \$1,350,000. One reason for suspension is the fact that the bank had to take a considerable amount of real estate for loans.

Tennyson's Widow Dead.

LONDON, Aug. 11.—Baroness Tennyson, widow of the late poet laureate, is dead. She was a daughter of Henry Selwood, Esq., and was married to Alfred Tennyson in 1850. Her son, Halham Tennyson, is the present Baron Tennyson.

Town Destroyed By Fire.

UNION CITY, Tenn., Aug. 11.—Jordan, Ky., a small town six miles north of this city, was destroyed by fire. Not a business house is left standing. The loss will be several thousand dollars. The origin of the fire is unknown.

Awarded Damages.

WARREN, Ark., Aug. 11.—The jury in the case of Esther Warren against the Missouri Pacific railroad for damages for personal injuries to a child returned a verdict for the plaintiff for \$40,000. The child's parents sued for \$112,000.

Cut His Own Throat.

OVERTON, Tex., Aug. 11.—C. P. GILL, a farmer living in Smith county four miles west of Overton, committed suicide by cutting his throat. The deceased was about 70 years old. Cause of his act is unknown.

Bishop O'Sullivan Dead.

MOBILE, Aug. 11.—Bishop Jeremiah O'Sullivan died last night after a lingering illness. He was born in County Cork, Ireland, in 1842. He was appointed bishop of Mobile in June, 1885.

The Boiler Exploded.

LITTLE ROCK, Aug. 11.—The boiler in Major Beasley's mill, near Cabot, exploded. Beasley's son was instantly killed and himself badly scalded. P. P. Benson of Cabot was fatally injured.

Shot For a Burglar.

HARRISBURG, Ill., Aug. 11.—George Gaskins shot and seriously wounded Albert Lancaster, a boarder, mistaking him for a burglar.

Rev. Thomas C. Sharp Dead.

CARLETON, Ill., Aug. 11.—Rev. Thomas C. Sharp, a prominent Methodist divine and painter, died here, aged 75 years.

AFFAIRS IN CUBA.

Batch of News From the Little Island Where There Is War.

HAVANA, Aug. 11.—Colonel Eduardo Muller, aide de camp to Captain General Weyler and Francisco Araso, editor of the Graceta, sailed from Havana today on the steamer Ciudad Condal. The colonel of artillery at Sotomayor has yellow fever.

Agustin Bestard, editor of The Patria, Santiago de Cuba and correspondent of the Diario de La Marina, was arrested upon his arrival here.

Comparison of the statistics of yellow fever shows that in 1876, 53 per cent of the cases died here in the month of May, and 47 per cent in the month of June from that disease. In May of this year the deaths were 23 per cent of the number of cases and for June were 34 per cent.

Reports received from Puerto Principe and Santiago de Cuba are that Maximo Gomez remains in the zone about Corbo.

The insurgents have burned and demolished the plantations of Luisa in Matanzas. At San Antonio de Los Baños, a proprietor named Domingo Hernandez, who was 70 years old, has been hanged by the insurgents.

Sundry small skirmishes have resulted in a loss to the insurgents of 27 killed, while the troops had 5 killed and 21 wounded.

LEASED TO A SYNDICATE.

Mexico Let Out the Tehuantepec Isthmus Railway.

SAN FRANCISCO, Aug. 11.—An English syndicate, at the head of which is Sir Whistman Pearson, member of parliament for Colchester, has just concluded a lease with the Mexican government of the Tehuantepec Isthmus railway. The terms of the lease include an agreement on the part of the syndicate to finish the work, already well advanced, for the improvement of the harbor of Coahuacalco, at the gulf terminus of the road, and construct harbor works at Salina Cruz, the Pacific terminus, which were included in the original plans, but which the Mexican government has been unable to execute. The road itself is to be greatly improved and in condition of a first class line. A line of ships plying between Salina Cruz and San Francisco will be put on and deliver freight to line plying in the Gulf of Mexico. A determined effort will be made to secure freight and low priced passenger traffic for San Francisco. On the other side of the isthmus it expects to get the bulk of European fine freight, such as dry goods which now come by steamship to New Orleans and by rail to San Francisco.

Naval Officers Visit London.

LONDON, Aug. 11.—Rear Admiral Thomas O. Selfridge, Captain George H. Wadleigh, commanding the United States cruiser Minneapolis, and Lieutenant John J. Hunter of the Minneapolis, all in full uniform, paid an official visit to the United States embassy here yesterday. Later, accompanied by the secretary of the embassy, James R. Roosevelt, and by Lieutenant Commander W. S. Cowles, United States naval attaché, the American officers paid official visits to the admiralty.

Count Von Rex Promoted.

LONDON, Aug. 11.—The Times' Berlin correspondent says that owing to the increased importance of the commercial relations between Germany and Venezuela the government has promoted Count Von Rex, the diplomatic representative at Caracas, to the rank of minister plenipotentiary and envoy extraordinary.

Was a Defaulter.

SAN FRANCISCO, Aug. 11.—It has developed that Harry K. Brown, exchange clerk of the Bullion and Exchange bank at Carson, Nev., who left that city suddenly two months ago, is a defaulter to the amount of nearly \$75,000. He is believed to be in Mexico. He left a wife and child in Carson.

Eighty Train Wreck.

HILLBORO, Tex., Aug. 11.—A south-bound Katy freight was wrecked between Taylor and Elgin and 13 cars derailed. Brakeman Wallace had a leg broken in two places and his skull was fractured. He is thought to be fatally hurt. The wreck was caused by a rail breaking.

Storms on the Mosquito Coast.

COLON, Colombia, Aug. 11.—Serious floods caused much damage on Mosquito coast. Several villages have been destroyed. The telegraph lines to Greytown are down. The Colombian schooner Pioneer, trading between Colon and Bluefields, has been lost.

Cholera In Egypt.

CAIRO, Aug. 11.—Cholera again shows an increase and anxiety is felt on account of the absence of reports from the camp of the Egyptian forces on the Nile. It is feared that a serious condition prevails there.

Emperor William's Health Is Good.

LONDON, Aug. 11.—A dispatch from Berlin to the Standard says that Emperor William's general health continues good, and that he climbed a hill with his physician on Friday.

Smothered to Death.

GUNNINS, Tex., Aug. 11.—Tom Kennedy's little girl, 5 years old, was smothered to death in a pile of cotton seed here.

AT JOHN B. MIKE'S.

A Discussion of Marriage.

There has been a friendly contest in one of the English papers between Sir Walter Besant and "A Correspondent" on the subject of woman's marriage versus her independence and happiness. The correspondent says: "Marriage, as known to the soberminded woman who has done her duty in the marriage state on any income below \$2000 a year, is one unvaried round of duties—cleaning, cooking, mending—day by day. The eternal stone we roll up hill painfully from morn till eve we find each morning where we found it the morning before." Later on, says Sir Walter, she acknowledges that a woman may marry with a chance of happiness on three conditions, of which one is enough for me. That one is that she loves the man.

This kind of talk about marriage is to me amazing. I have lived a good long time in the world. I have made acquaintances by the hundred; friends—not so many. Looking back upon all the people that I have known, I can safely say that the number of unhappy marriages I have personally witnessed, has been very small indeed. By far the larger number of wives have accepted cheerfully the position of housekeeper and matron. They have kept house for husbands and children, whose happiness is their own. Many of them have kept house with the earnest intention of making a house beautiful, which became a continual feast for themselves; many of them have brought art into every part of the daily life, which has been a continual feast for themselves, as well as the other members of the house for all these matrons the daily work has been a daily delight. Then, as for drudgery and monotony, is there none in man's work? Think of the monotony and drudgery of a city clergyman's life, when every day he has to tramp around ungrateful slums. Think of the monotony and drudgery of the doctor going his daily rounds. Think of the monotony and drudgery of the solicitor, always drawing up endless documents in hideous legal jargon. No, the monotony of life, I am quite sure, is pretty equally ladled out to working man or wedded wife. What I have said over and over again, and do most stoutly maintain, is the very simple copybook maxim, that without love marriage must be intolerable; but, given love as an essential, then the woman who yields to the promptings of her heart, and accepts the burdens—light or heavy—of marriage, leads the happiest life. In this matter, as in all others, my humble philosophy soars no higher than the school primer, written for the sixth standard, on the Conduct of Life.

A Four-Time Winner

Centennial Exposition, 1876; Miller's Exposition, 1880; World's Fair, 1893; Atlanta Exposition, 1895.

and all the first prizes in state and local fairs and expositions for the last twenty years. Are some of the claims upon which

Washburn, Crosby's

Gold

Medal

Flour

bases its claims to first place.

Everybody buys it. Every grocer sells it.

Sold in Bryan

BY

JOHN B. MIKE.

The H. & T. C. road has changed the name of two stations on its line this week—Holland and Ghost Hill. Holland has been changed to Bitton, and Ghost Hill to Mackey. Don't see why such "scary" names were given these stations in the first place. Think of an editor of a neighboring town having to note the arrival of the Hon. John Jones from Hell and the coming of Miss Jerusha Smilax from Ghost Hill! Such an announcement might scare some of his delinquent subscribers out of their wits.—Eagle Democrat.

We ran across our former townsman Mr. G. M. Brander, while in Galveston Sunday. He is well pleased with his new location at Bryan, but also still much interested in Huntsville and her good people.—Huntsville Times.
